

**Bringing high-quality Mississippi Grown foods to community grocery stores, restaurants, schools, and homes.**

Our facility and our handling processes are designed to extend the life and preserve the quality of your produce. We start the cold chain as soon as the produce hits the dock!

Our team consists of restaurant owners, chefs, food entrepreneurs, and grocery managers. We are committed to farmers because you are the foundation of our supply chain.

- ✚ Located at former Farmers Market in Jackson
